HUNTINGTON FOREST

HOMEOWNERS ASSOCIATION

ARCHITECTUAL CONTROL

GUIDELINES

AND

PROCEDURES

REVISED 2003

This set of guidelines and procedures has been developed with the assistance of a number of similar documents from homeowner associations from around the country. It is hoped that their past experience in design review and architectural control will be of benefit to us as homeowners in Huntington Forest.

This document was originally written in 1985 and revised in 1989. It includes all the changes and additions since the printing of the original version.

The Board would especially like to point out that Request Applications to the ACC must be submitted BEFORE beginning any improvements or changes.
